

The Techno Tourist Announces Partnership with: We Are FSTVL

New York-based, music-laced lifestyle brand [The Techno Tourist](#) is thrilled to announce its new title as an **official travel partner** of Essex's [We Are FSTVL](#).

"It feels great to work with one of the best new festivals in the industry," says The Techno Tourist CEO/President Mike LaGrotta. *"Though we're originally based in New York City, two of our core team members live in London, where we run our European and UK-based operations. It is only natural that we partner with great people in this core location—a much loved home-away-from-home for our company."*

In December 2013, We Are FSTVL was named "[Best New Festival](#)," an award voted on by over 500,000 UK electronic music fans and industry aficionados. Described as "*slickly planned and well-programmed*" by The Independent, We Are FSTVL co-director Reece Miller reminded festival lovers in 2013 that,

"We're just warming up, you ain't seen nothing yet!!...."

We Are FSTVL 2014 is ready for action. Planned for two days over the May Bank Holiday weekend, Saturday 24th – Sunday 25th May 2014, the festival promises to be bigger and better than ever. The Airfield of Dreams, Damyn's Hall Aerodrome will host over 200 of the world's biggest dance music artists over 16 stages. International superstars set to grace the decks include: Richie Hawtin, Sven Väth, Ricardo Villalobos, Luciano, The Martinez Brothers, Maya Jane Coles and many more.

The Techno Tourist's travel partnership with We Are FSTVL offers custom itinerary, high-end packages, and ticketing options. The team is passionate about electronic music and dedicated to sending both industry professionals and festival addicts to events with bespoke travel recommendations and luxury accommodation. What originally started as a boutique travel agency has grown into a lifestyle, one that champions food, art, architecture, and above all—great music. The adventure team ensures that a Techno Tourist does not simply experience a festival, but that they soulfully distill **the location, the cuisine, and the culture** that distinguish and amplify each event.
